CLAIMS

What the invention claimed is:

1. A method of operating a gaming system, the gaming system comprising a player tracking system (PTS) having a PTS database capable of storing player profile fields therein, said player being tracked by said PTS being either a sponsoring player or a recruited player, said method comprising:

creating at least one additional field for each player profile to store information identifying a recruited player's sponsoring player;

receiving information relating to the recruited player for the purpose of populating the recruited player profile and wherein said received information includes information identifying a sponsoring player;

establishing recruited player criteria;

accepting a recruited player into the PTS that meets the recruited player criteria;

populating and storing a player profile in said PTS database corresponding to said received information from said recruited player;

recording each player's gaming activity collected by said PTS database in each player's profile; and

offering ongoing, typically complimentary, benefits to the recruited player's sponsoring player based on the gaming activity of said recruited player;

- 2. The method of claim 1, wherein manual bookkeeping and player tracking replaces said PTS.
- 3. The method of claim 1, further comprising allowing a new player, subsequent to acceptance into said PTS, to become a sponsoring member.
- 4. The method of claim 3, further establishing a sponsoring hierarchy for recording the hierarchical relationship between sponsoring members and their sponsored players, wherein said hierarchical relationship would contain many levels of direct and indirectly sponsored players.
- 5. The method of claim 4, further comprising offering complimentary benefits to a first player based on the gaming activity or other qualified activity of subsequent players directly and indirectly sponsored by said first player as recorded in said sponsoring hierarchy.
- 6. The method of claim 5, wherein said offered complimentary benefits based on said sponsoring hierarchy are based on a selectable number of levels in said sponsoring hierarchy.
- 7. The method of claim 5, wherein said offered complimentary benefits are independently selectable for each level of an individual member's sponsored hierarchy.

- 8. The method of claim 5, wherein said offered complimentary benefits for each level of an individual member's sponsored hierarchy are selectable and based on a mathematical formula.
- 9. The method of claim 5, wherein said offered complimentary benefits for each level of an individual member's sponsored hierarchy are selectable and based on the nature of the qualified activity.
- 10. The method of claim 5, further comprising offering an immediate incentive to said sponsoring member of a new player upon acceptance of said new player into said PTS.
- 11. The method of claim 5, wherein qualified gaming activity is based on at least one of the following: the sum of all wagers placed by a player, the sum of all winnings associated with all wagers placed by a player, a configurable combination of a player's wagers and winnings, the net winnings associated with a player, and other qualified spending by a player.
- 12. The method of claim 5, wherein said offered complimentary benefits are associated with qualified activity participated in by direct and indirect recruits beyond a minimum wagering volume, wherein a recruit's gaming activity volume is a running sum of the value of all qualified gaming activity.
- 13. The method of claim 12, wherein said accumulated gaming activity volume is periodically set to zero.

- 14. The method of claim 10, further comprising populating the sponsoring member field of an existing member's player profile with information identifying a sponsoring member.
- 15. The method of claim 14, further comprising allowing a member of said PTS to change his sponsoring member to identify a different member of said PTS.
- 16. The method of claim 15, further comprising requiring permission from said first sponsoring member before said change is enacted.
- 17. The method of claim 16, wherein the method described operates in the environment of a single casino.
- 18. The method of claim 16, wherein the method described is extended to accommodate multiple locations of a gaming organization.
- 19. The method of claim 16, wherein the method described is extended to accommodate multiple locations of organizations affiliated with a gaming organization.
- 20. The method of claim 18, wherein a gaming organization includes a casino, a race track, a dog racing track, a horse racing track, a sports betting organization, a bingo hall, and a lottery as well as a bar, a retail store, and other facilities where legalized gaming is permitted.
